

The University of the Sunshine Coast will be screenings of sustainability themed short films and documentaries during Sustainability Week. You can find the schedule for the screenings here: <https://www.usc.edu.au/about/sustainable-usc/sustainability-week>. However, if you are unable to join us for the screenings on campus, you can still view these films.

They are all available on the WaterBear Network, a free streaming service dedicated to sharing stories related to sustainability and the Sustainable Development Goals. You can download the WaterBear Network app on the Google Play Store or App Store or go to: <https://join.waterbear.com/>
